Fig. 2

The diagram illustrates a circular device 10, possibly a turbine or propeller, with a central hub 12. The device is divided into multiple segments or blades 14, which are connected to the hub by structural elements 16. The outer edge of the device is labeled 24. A dashed circle 54 is shown within the central area, and a dashed circle 58 is shown in the lower-left quadrant. A dashed line 18 is also present. The device is shown in a cross-sectional view, with a curved outer surface 26 and an inner surface 30. A curved line 32 is shown on the left side, and a curved line 34 is shown on the right side. A curved line 36 is shown at the top right. The device is shown in a perspective view, with a curved line 28 at the top and a curved line 30 at the bottom.
